Mr. Jeffrey Dacks
Architect

Las Vegas, Nevada

Dear Jeff,

On behalf of myself and the Board of Directors of the Silver State Safety Council I would like to thank you for the outstanding work you provided us in designing the administrative/classroom building for our forthcoming Safety Complex. The building which you envisioned and drew meets all of our utilitarian concerns, is bright and attractive, yet still falls within those all-important budget constraints.

It was a great pleasure to work with you on this project. I appreciate your patient good humor in leading me, a neophyte in the building business, through all of the intricacies and practicalities of this heretofore unknown experience. I know too, that in the years to come, we will all appreciate your professionalism in sticking to your artistic guns and designing a building with "character" rather than the generic box I thought we wanted.

Again, Jeff, thank you for all of your hard work and many considerations in helping get us closer to our goal of a southern Nevada vehicular safety center. I hope that when this FINALLY comes to fruition that we can rely on you to attend the dedication so that we may recognize your contribution to this project. If we may ever reciprocate for your assistance please contact me at this office.

Very truly yours,

Dennis G. Green
Executive Director
