

*Dear Jeff,*

*I was just thinking of you the other day as I was enjoying the view from one of my treatment rooms and wanted to thank you again for the wonderful design of my building. It has been almost 9 years now since I opened and the office is such a pleasure to work in every day. We still get compliments from new patients on the large windows with the amazing views of Summerlin in each room. You were great to work with and I so appreciate all of the design details you brought to my attention to help me make my dream practice a reality.*

*Thanks again, you're the best,*

*Liz*
